

The Essex County Council (Epping Forest District Council) (Prohibition of Stopping) (Civil Enforcement Area) (Amendment No.20) Experimental Order 2022
Statement of Reasons

Avey Lane, Church Lane, Church Road, Claypit Hill, Cross Roads, Forest Side, Lippitts Hill, Manor Road, Mott Street, Pauls Nursery Road, Pynest Green Lane, Road Between Manor Road and Avey Lane, Wake Road and Wellington Hill & access road to Forest Visitor Centre, Earl's Path, Fairmead Road, Forest Side & Rangers Road.

Double red route (no stopping at any time) restrictions will prevent parking close to, and on junctions, as well as bends on the highway.

A seasonal single red route line on one side of the highway will ensure that parking is prevented during peak times of the year, when visitor numbers increase.

Preventing parking on one side of the highway will ensure that access to the Forest is preserved and larger vehicles, primarily those associated with the Emergency Services will be unhindered when travelling into and through the Forest.

Parking is available on one side of the highway which will be left unrestricted where it is safe to do so.
