

The Essex County Council (Colchester City) (Prohibition of Waiting, Loading and Stopping) and (On-Street Parking Places) (Civil Enforcement Area) (Amendment No.42) Order 202*

Statement of Reasons

1 - No Waiting At Any Time restrictions (double yellow lines) are being proposed at the following junctions: High Street North and Mersea Avenue junction, St Peters Road and Mersea Avenue junction, New Captains Road and St Peters Road junction, Kingsland Road and Kingsland Beech junction, Kingsland Road and Kingsland Close junction and Kingsland Road and Goings Lane junction. These are currently unrestricted, and the proposals are intended to avoid danger to persons or other traffic using the roads or to prevent the likelihood of such danger occurring. This will be done by preventing any vehicles from waiting and so ensuring sight lines for both motorists and pedestrians. The carriageway on the opposite side of the junctions is also being restricted to allow easier access and egress at the junction.

2 – It is proposed to revoke No Waiting 8am to 6pm restrictions and replace with No Waiting at any time restrictions at the High Street North and Firs Chase junction along with the carriageway on the opposite side of the junction. The proposals are intended to prevent vehicles waiting at all times, rather than just 8am to 6pm, as it is not considered appropriate for vehicles to be parked near the junction at any time. This will serve to ensure sight lines for motorists and other road users and so will avoid danger to persons or other traffic using the roads or to prevent the likelihood of such danger occurring.
